Other hospitals provide a good pension,

WHY NOT SICK KIDS?

Sick Kids has not paid into its staff pension plan for

26 YEARS

This means that Sick Kids has taken a **contribution holiday**, while workers continue to fund the pension plan, **on their own**.

How is the Sick Kids pension plan an employer provided benefit, if the employer isn't contributing?

**It's past time for Sick Kids to join HOOPP!
Because hospital workers deserve better.**
